WORK EXPERIENCE

Full-Stack Developer

2025–2026

Lanky Groups

- Developed and maintained web and mobile applications using Go, React, Angular, Flutter, TypeScript, MySQL, and PostgreSQL.
- Delivered frontend and backend features across client and internal projects.
- Built responsive user interfaces and implemented backend services, REST APIs, and database integrations.
- Leveraged Claude Code CLI, OpenAI Codex, and MCP integrations to accelerate coding, debugging, testing, and documentation workflows.
- Engineered AI-assisted workflows for software development, quality assurance, requirement analysis, and automation.
- Participated in code reviews, technical documentation, software testing, and issue investigation.
- Performed unit and integration testing to improve application reliability and code quality.

Project Lead & Full-Stack Developer Intern – HRIS Development Internship

2026

iReply Back Office Services Inc.

- Led development of a Human Resource Information System (HRIS).
- Implemented employee management, attendance tracking, and role-based access control features.
- Developed frontend and backend components using React, PHP, MySQL, and Vite.
- Coordinated project planning and development activities.
- Performed QA testing, bug investigation, validation, and debugging.
- Used AI-assisted workflows for documentation, requirement analysis, and issue resolution.
- Improved system reliability, performance, and user experience.

PROJECTS

Human Resource Information System (HRIS)

React, PHP, MySQL, Vite

- Developed a full-stack HR system for employee management and time logging.
- Implemented role-based permissions and CRUD operations for employee data.
- Built using React, PHP, MySQL, and Vite

ProDuce - Web and Mobile application

Vanilla PHP, MySQL, Flutter, Dart, HTML, CSS, JavaScript

- Developed a full-stack web and mobile e-commerce platform that enables public market vendors to sell vegetables online and reduce produce waste from spoilage.
- Implemented a mobile application for vendors and a web-based admin panel to manage products, orders, and system operations.
- Built the system using Vanilla PHP, MySQL, Flutter, and Dart.

ADDITIONAL EXPERIENCE

Research Project Developer – “ProDuce” E-Commerce Platform

2025

University of St. La Salle - Bacolod

- Developed a full-stack web and mobile e-commerce platform enabling public market vendors to sell vegetables online and reduce produce waste.
- Built a vendor mobile application using Flutter and Dart.

- Developed a web-based administrative panel using PHP, MySQL, HTML, CSS, and JavaScript.
- Implemented product management, order processing, and inventory management features.
- Collaborated with team members throughout requirements gathering, development, testing, and deployment activities.

Startup Pitch Competitor – CCS Startup Battle, USLS Exhibition 3.0

2025

University of St. La Salle - Bacolod

- Presented an innovative technology solution during a competitive startup pitching event.
- Delivered a three-minute business and product presentation followed by a live question-and-answer session.
- Demonstrated communication, problem-solving, and product development skills in a competitive environment.

Web Application Developer – USLS Exhibition 2.0

2024

University of St. La Salle - Bacolod

- Contributed to the development of a Sustainable Development Goals (SDG) web application.
- Enhanced frontend user experience and backend functionality.

Web Developer – DevFest 2023 MassKara Festival Exhibition

2023

University of St. La Salle - Bacolod

- Designed and developed a responsive event website.
- Created user-friendly interfaces and organized event content.
- Improved accessibility and visitor engagement.

EDUCATION

Bachelor of Science in Information Technology · University of St. Lasalle – Bacolod April, 2026

Science, Technology, Engineering, and Mathematics (STEM) · La Consolacion College - Bacolod May, 2021

SKILLS

- **Programming Languages:** Go, PHP, JavaScript, TypeScript, Dart, SQL
- **Frontend Development:** React, Angular, HTML5, CSS3, Bootstrap, Vite
- **Backend Development:** Go, PHP, Laravel, REST API Development, API Integration
- **Mobile Development:** Flutter, Dart
- **Database:** MySQL, Firebase, PostgreSQL
- **AI & Automation:** Prompt Engineering, Claude Code CLI, OpenAI Codex CLI, MCP Integration, LLM Workflows, AI-Assisted Development
- **Testing & QA:** Functional Testing, Unit Testing, Integration Testing, Validation Testing, Bug Tracking, Debugging
- **Developer Tools:** Git, GitHub, Postman, Android Studio, VS Code, Figma, Webflow, Jira

ACHIEVEMENTS & ACTIVITIES

- Dean’s Lister (2023-2025)
- CCNA: Switching, Routing, and Wireless Essentials
- CCS Startup Battle Participant
- DevFest Project Exhibition
- HRIS Project Lead
